DIRECTOR'S LETTER

Dear Partners, Clients, and Stakeholders,

PT Wiyoko Mitra Utama was founded with a clear purpose: to bridge Indonesia's industrial potential with world-class operational standards.

Through the Wiyoko Integrated Ecosystem, we transform conventional vendor relationships into strategic partnerships. By integrating Mining Procurement, Equipment Rental, and Professional Outsourcing, we provide a single, accountable solution that supports efficient, safe, and sustainable operations.

As Indonesia advances as a global hub for mining and infrastructure development, PT Wiyoko Mitra Utama combines deep local understanding with international performance expectations—helping partners navigate complexity while accelerating growth.

Our foundation is built on three principles: Governance, Safety, and Excellence. Through strong compliance practices and continuous workforce development via our Training Center, we ensure every operation is executed professionally, responsibly, and safely.

Looking ahead, we are committed to becoming a trusted Indonesian partner for global collaboration—delivering resilient solutions powered by technology, equipment, and highly capable people.

We look forward to building lasting partnerships and advancing Indonesia's industrial future together.

Sincerely,

Ruth F Pulungan
Director
PT Wiyoko Mitra Utama

WHY CHOOSE PT WIYOKO MITRA UTAMA

A Trusted Partner for Project Execution in Indonesia

Successfully operating in Indonesia requires more than technical capability—it requires a partner who understands local realities while delivering international standards.

PT Wiyoko Mitra Utama provides integrated solutions that enable efficient, compliant, and sustainable project execution across complex operating environments.

Integrated Solutions

We combine procurement, equipment support, workforce services, logistics coordination, and training development within one unified ecosystem—reducing operational fragmentation and improving efficiency.

Local Expertise, Global Standards

Our team bridges deep local knowledge with global governance, safety, and quality practices, helping partners navigate regulatory and operational complexity with confidence.

Reliable Execution in Challenging Environments

From mobilization to field operations, we deliver practical and dependable solutions for remote and demanding project locations.

Risk Control & Operational Efficiency

Through structured planning, disciplined execution, and transparent coordination, we help minimize risk, control costs, and maintain project timelines.

Sustainable Partnership

We build long-term collaborations grounded in integrity, transparency, and shared value—supporting both operational success and responsible community engagement.

Our Commitment

We are not merely a service provider; we are a strategic execution partner dedicated to supporting successful and sustainable operations in Indonesia.

Ruth S J Fangidae
Director

Ruth S J Fangidae is an Indonesian executive leading the development of integrated project solutions designed to bridge global investment expectations with local operational execution across Indonesia's evolving resource and infrastructure landscape. As Director of PT Wiyoko Mitra Utama, she guides the organization's transformation into a Project-Based Investment & Integrated Services partner supporting complex, capital-driven operations in challenging and remote environments.

Her leadership reflects a strategic understanding that successful project delivery in Indonesia requires more than technical capability—it demands alignment between governance, community engagement, workforce readiness, and disciplined execution.

With postgraduate academic training (S.Pd., M.Si.) and a professional background rooted in human capital development and organizational leadership, Ruth brings a distinctive perspective that integrates operational performance with long-term institutional sustainability. She has consistently emphasized capacity building as a strategic asset, contributing to workforce advancement initiatives through Yaumapare Excellent Training Center, supporting the preparation of globally competitive talent particularly within Papua and Eastern Indonesia.

Her leadership philosophy centers on responsible growth, transparent governance, and collaborative partnership models. Under her direction, PT Wiyoko Mitra Utama has evolved toward an integrated business ecosystem encompassing procurement management, heavy equipment support, construction and special projects, logistics coordination, workforce solutions, and investment collaboration frameworks.

Ruth is recognized for fostering cross-cultural engagement and trusted relationships between Indonesian enterprises and international stakeholders. She actively promotes partnership approaches that reduce operational risk, strengthen local participation, and enable sustainable project outcomes aligned with international standards.

Through her executive stewardship, PT Wiyoko Mitra Utama continues positioning itself as an Indonesian partner capable of supporting global operators seeking reliable execution, regulatory navigation, and long-term value creation within one of the world's most strategically significant resource markets.

COMPANY OVERVIEW

PT Wiyoko Mitra Utama is an Indonesia-based Project-Based Investment & Integrated Services Company, delivering comprehensive solutions across procurement, heavy equipment rental, construction, special projects, logistics, workforce services, and capacity development.

Established with a commitment to professionalism, transparency, and execution excellence, the Company operates with a global mindset and adheres to international standards of governance, quality, safety, and sustainability. PT Wiyoko Mitra Utama positions itself not merely as a service provider, but as a strategic partner and value creator for complex, capital-driven projects.

VISION

To become a trusted and internationally recognized business partner, delivering sustainable value through integrity, innovation, and responsible growth.

MISSION

- To deliver high-quality, efficient, and investment-oriented solutions that exceed client and partner expectations.
- To uphold integrity, transparency, and ethical business practices across all operations.
- To ensure measurable performance through disciplined execution, risk management, and continuous improvement.
- To strengthen organizational resilience through competent human capital, technology adoption, and good corporate governance.

CORE VALUES

- Integrity – Conducting business with honesty, accountability, and transparency.
- Professionalism – Operating with discipline, competence, and international best practices.
- Excellence – Committing to quality assurance, efficiency, and continuous improvement.
- Partnership – Building long-term, mutually beneficial relationships.
- Sustainability – Creating lasting value through responsible economic, social, and environmental practices.

Business Lines

Procurement & Project Supply Management

We provide structured procurement of goods and services supported by trusted suppliers, rigorous quality assurance, and integrated risk management. Our procurement framework emphasizes compliance, transparency, and capital efficiency.

Heavy Equipment Rental

PT Wiyoko Mitra Utama supplies a wide range of heavy equipment, generators, mining pumps, and supporting tools through:

- **Dry Rental** – Equipment with standard maintenance
- **Wet Rental** – Equipment inclusive of operators and on-site technical support
-

Our rental solutions enable clients to optimize capital expenditure, reduce operational risk, and maintain project flexibility.

Construction & Special Projects

We deliver construction, renovation, and special project services covering:

- Feasibility studies and project planning
- Engineering design and execution
- Renovation and modernization works

All projects are managed with strict quality control, cost discipline, and schedule certainty.

Labour Supply Services

We provide workforce recruitment and placement aligned with client-defined qualifications. Our end-to-end recruitment process includes administrative screening, interviews, psychological assessments, and work readiness preparation—reducing recruitment time, cost, and operational risk for clients.

Training & Workforce Development

Through **Yaumapare Excellent Training Center**, we deliver technical and non-technical training programs designed to produce globally competitive human resources, particularly supporting workforce development in Papua and eastern Indonesia.

Affiliated Companies

- **PT Amung Negelem Sejahtera** – Heavy equipment maintenance and rental services
- **Yaumapare Excellent Training Center** – Workforce education and professional training
- **Puffin Papua Catering** – Catering and operational support services
- **PT Trine Global Indonesia** – Business cargo services, logistics coordination, and legal & licensing facilitation
- **Yayasan Wadah Kasih Wiyoko** – Corporate social responsibility foundation

Track Record Snapshot

PT Wiyoko Mitra Utama has accumulated proven experience across multi-sector, project-based engagements, particularly in mining support services, infrastructure development, logistics coordination, workforce supply, and operational support in challenging and remote environments.

Our track record demonstrates the Company's ability to:

- Execute procurement-driven projects with structured risk allocation
- Manage heavy equipment rental and industrial operational support
- Deliver construction and special projects with controlled cost, quality, and timelines
- Supply trained, job-ready workforce aligned with project requirements

Coordinate logistics, cargo handling, and regulatory processes through affiliated entities
